

# Wide Area Communications

Whilst PMR radio systems are the mainstay for taxi firms, holiday camps, colleges etc, wide area PMR communications are used by many businesses including taxis to give extended range. At Gould Electronics we offer coverage throughout Cornwall and Devon from our wide area trunk system.

## VEHICLE TRACKING & MAPPING

Gould Electronics have developed a state of the art GPS vehicle tracking solution which is designed to provide customers with improved visibility and control of their mobile operations and vehicle fleet

### Tracking Key Features

- View your vehicle's location, speed and status in real time.
- You do not need to have software installed on each computer.
- All data is hosted and stored by dedicated server.
- View vehicle locations using a comprehensive map or actual satellite photo.
- Market leading support and training.

## We run the network, You simply use it!

### Voice Features

- Radio to Radio calls
- Group Calls (radio to many radios)
- Make and receive phone calls (land lines and GSM mobiles)
- Fast call setup times (under 1 second anywhere in the network if no queues)

### Data Features

- Text Messaging (SMS messages to individual radios & groups)
- Customer defined Status Messages (Arrived at Job) (Finished Job) etc.
- GPS Tracking (View your vehicles location, speed and status in real time)

### Emergency Features

- Remote Alarms (Wire in external inputs such as intruder or fire alarms)
- Lone Worker Monitoring (Endorsed by H&S Executive)
- Personnel & Vehicle Tracking
